### EVENT TITLE: ENGINEERING IS FOR CREATIVE MINDS AND SUSTAINABLE DEVELOPMENT

NSE Oluyole Branch was inaugurated in August 2017 and a sub-branch of the Nigerian society of Engineers.

The Nigerian Society of Engineers was established in 1958 to provide a central organization for Engineers in Nigeria and generally to engage in activities that could be necessary to maintain a strict standard of professional ethics amongst its members, and to advance the interest of engineering profession in Nigeria. In the discharge of its functions, the society is expected to collaborate with industry, commerce and academia and other such national bodies as may be necessary and to present to the government of Nigeria, the views of the Society on subjects of concern or interest of Engineers in Nigeria. The Society has recorded tremendous progress since its' establishment.

### EVENT OUTLINE

The event will be held in different locations across our coverage areas in order to spread the activities to rural and urban communities.

**WORLD  
ENGINEERING  
DAY** FOR SUSTAINABLE  
DEVELOPMENT

**4th March, 2020**

### THEME:

**Engineering is for Creative  
Minds and Sustainable  
Development**

United Nations Educational Scientific and Cultural Organisation (UNESCO) has proclaimed 4th March as World Engineering Day for Sustainable Development Engineering is essential for economic advancement and restoration of natural resources.

The World Engineering Day will provide an opportunity for dialogue between engineers, decision makers, industry leaders, scientists, NGOs and the public at large to address the World's most pressing issues. Therefore, this Day will open an avenue for presenting the recent achievements of engineers and how engineering and technology are central to modern life and sustainable development.
